DETAILED ACTION

Allowable Subject Matter

1. Claims 1 and 3-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant amended claims 1, 3-5, and 8-16, canceled claim 2, and added claims 17-20, according to "Amendment" received November 4, 2004; and presented arguments in favor of allowance of the newly amended and newly added claims. The Applicant demonstrated to the Examiner's satisfaction that, with respect to the 35 U.S.C. 102(e) rejection of claims 1-16, the primary reference of S. Wakui (6,378,672 B1) is no longer applicable to the Applicant's invention, since S. Wakui fails now to disclose an elastic-motion measuring unit and a distinct rigid-motion measuring unit, and a control unit for controlling an actuator based on motion measured by both of these units. Wakui also fails to disclose a control unit for predicting elastic motion of an object and controlling a first actuator for moving the object and a second actuator for suppressing elastic motion of the object, based on the prediction of elastic motion of the object caused by the first actuator.

With respect to the newly amended independent claims 1 and 11 and the newly added independent claims 17, S. Wakui, and any other prior art, fails to disclose or make obvious, in addition to the accompanying features of the claims, the use of the elastic-motion measuring unit and a distinct rigid-motion measuring unit, and a control unit for controlling an actuator based on motion measured by both of these units.
